Institution Distinctiveness:

Centre for Excellence

The college has an innovative Centre for excellence that provides engineering students to learn and equip themselves within the campus by offering continuous training, line projects knowledge up gradation etc., for both students and faculty. These Centre help students in internships and recruitment companies also gain a lot through this initiative as this becomes a good testing ground for experimenting with new ideas, processes and technology before implementation and provides a wholesome development that requires to meet today's need is given in our campus.

TVS Lab

Here in this mode all our students are exposed to enterprise and experience and undergo the project that fit to the reality and bring change and solution to the real life problems through their project and intern they learn and serve the society side by side, by keeping this as a motto this was strictly practiced in our to flourish the students who tend to help the society in future with their education.

DEPARTMENT OF PHYSICAL EDUCATION OF IGCE

Sports, an integral part of human culture and society, have been a source of entertainment, competition, and camaraderie for centuries. From ancient civilizations to the modern era, sports have evolved into a global phenomenon that transcends geographical and cultural boundaries. The world of sports is diverse, encompassing a myriad of disciplines, each with its unique set of rules, skills, and passionate fan base. All games coaching and Training & to accompany with team participated in Zonal, Inter-Zonal, All India, Open tournaments and all other.

OBJECTIVES OF THE DEPARTMENT

Our college management has set up the Department of Physical Education and has provided many facilities for students to take up physical education activities. The objectives of the Department are:

- To create awareness and importance in students' community regarding to engage in regular physical activity to improve cardiovascular health, muscular strength, flexibility, and overall fitness.
- To create awareness about sports activities and make students to participate in various sports and recreational activities to promote team work, leadership and interpersonal skills.
- To engage students to organize and facilitate intramural and extramural sports events in healthy competition and recreation.
- To prepare students to participate in inter-university level
- To select fresh students (those who have not participated in any sports activity in their school studies) to motivate them and encourage them to take up any one of the game and provide coaching in that particular activity.

The students are participating in various athletic events and games inside and outside the college and are bringing laurels to our college.

18. BEST PRACTICES

- Skill based training

- i. Identifying various passions and skills among students
- ii. Segregating quick learners and slow learners
- iii. Catering the needs of the students
- iv. Provide training to the students in all possible aspects to be readily employable

The students are segregated into quick learners and slow learners based on the results of previous end semester examination. A student failed even in one subject will be grouped in slow learners while other will be grouped in quick learners. Normally, classes gets over by 4.00 pm and the time between 4.00 pm and 5.00 pm is termed as SCC/CCA session. SCC is Special Coaching Class and CCA is Co-Curricular Activities.

SCC/CCA will be conducted on all working days between 4.00 pm and 5.00 pm. Slow learners will be one 13 marks question and two 2 marks questions to study for first half-an hour and allowed to write the same answer as test during the next half-an hour. By this way, slow learners will be trained to study the subject little by little in each subject and paves way to get pass mark in the ensuing end semester examination, which is their primary target.

At the same time, quick learners will be assembled in a separate class room or lab, where they will be trained in aptitude, group discussion, interview practice, GATE coaching, English proficiency, Communication skills, certificate course, and other requirements of students' choice. Those talents are allowed to develop after 5.00 pm. Apart from this, in order to train the students of SCC with CCA, a special session called 'TATS' (Technical Aptitude Training Session) is incorporated in the time table itself for the benefit of the slow learners. This session will be handled by a teacher unlike CCA.

Students who underwent CCA are trained well and could able to face society with clear mind. Now the students could fetch job in top companies like TCS, CTS, INFOSYS in the pooled off-campus drive conducted by Anna University. Evidence is that more number of our college students gets placed in off-campus interview process conducted by other colleges in recent years.

Inclusion of TATS in the regular time table has changed the slow learners to get placements in small companies, for which they are happy about that. Parents also felt happy about their son/ daughter who rose up to better position when compared to how they are when they are admitted in the first year.

- **Standard formats for all requirements**

- i.** For maintaining uniform format and procedure
- ii.** To develop discipline in record maintenance
- iii.** To inculcate the habit of following a standard procedure
- iv.** To indirectly educate the practice of writing in good English

32. Students' feedback
33. Parents' meeting format
34. Committee format
35. Minutes of the meeting format
36. Monthly Progress Report-Faculty members
37. Teacher's profile for recruitment

Writing an official letter is an art and that should claim what is required directly in a polite manner. Most of the letters written by students conveys information to the higher authority rather than request for permission and most of the time the content mislead their request. If it is allowed at this stage, then they may continue the same in their career which may go wrong. In order to curtail this and to educate the way of writing letter, formats are prepared and given to students to train them in writing letter in good English. This is our first attempt and got success in that.

The evidence of success is that, now our students are following a uniform format and procedure, developed the discipline of record maintenance, developed the habit of following a uniform standard procedure, learnt the way of creating a format for any requirements, and also practiced writing in good English. These evidences are clearly seen in the students while they organise symposium, workshops and various events like Independence Day, Republic day, Annual day and other events.
